<b>Date</b>	<u>10-13 May 2011</u>
<b>Location</b>	Kielce Trade Fairs Zakładowa 1 25672 Kielce, Poland Tel: +48 (0)41 3651222

---

MASZBUD is an international construction equipment and special vehicles exhibition. The range of the fair goes from earth work machinery, through production and transport of concrete to finishing work equipment. There is also an exterior area with many specialist devices such as cranes and access equipment, construction vehicles, parts and components for construction machinery and pneumatic, hydraulic and electric tools. MASZBUD is created mainly for specialists of the construction market like construction workers, producers and dealers of construction equipment and branch media's representatives. Traditionally, the fair is accompanied by a variety of conferences, technical training courses and meetings.

## **EVENT PROFILE**

Maszbud Expo is the leading trade event in the country for the earthmoving, civil contracting and quarry industries. It will present top-quality branded wares and fine design products in a variety of categories as well as industry technology and services.

General Enquiry
