

Meeting with	Marek Miśluk
Organization	NM Group
Date	20 February 2009
Location	Phone interview

Introduction:

Marek Miśluk is responsible for the purchase department within NM Group. The company as an investor is realizing complex sport solutions both for the public, and for the private sector. Being responsible for all of parts of the development process gives the company independence of choosing the best equipment used in the objects.

Projects:

Nowadays, the company is mostly focusing on the development of small size football pitches realized within the governmental programs "Orlik 2012", and "Moje boisko". The company puts grate pressure on the quality of objects, that is why all of the products used posses the FIFA and UEFA certificates and are compatible with Polish Norms.

We were told that the company is growing rapidly, that is why it is looking for quality and reliability oriented partners, not only from Poland, but from all over Europe.

Opportunities:

NM Group is looking for partners producing following types of equipment, that can be used in the outdoor football pitches and other sports infrastructure:

- Lightning systems,
- Sound systems,
- Fencing,
- Artificial turf,
- Synthetic turf,
- Acryl pavement,
- Polyurethane pavement,
- Equipment connected with placing the turf and on the ground
